Dear Sir or Madam,

Thank you for your inquiry regarding REACH Regulation (EC 1907/2006):

WAGO is quite conscious of the responsibility that arises from this regulation and has identified the company's role in the supply chain and the resulting obligations. Normally WAGO occupies the position of a downstream user in the supply chain. Therefore, WAGO has a duty to inform according to REACH Regulation Article 33. WAGO has implemented processes to meet the obligations under REACH, in particular the information requirements under REACH Article 33. Of course, WAGO forwards present information regarding Substances of Very High Concern (SVHC) to the supply chain immediately, if SVHC are contained in WAGO-products above threshold. WAGO is closely monitoring further developments in this field and will respond accordingly in a timely manner to possible additional requirements.

WAGO would like to communicate compliance information regarding REACH or other restricted substances legislation in a structured and effective way. Therefore we use the compliance tool "BOMcheck" already since 2011. For more information about this web database please visit [www.bomcheck.net](http://www.bomcheck.net). This homepage offers also the opportunity to create a free manufacturer account, that enables you to check our declarations directly.

We hope that we have sufficiently answered your questions regarding REACH.

Best regards,

**WAGO Kontakttechnik GmbH & Co. KG**

  
Sven Hohorst  
Chief Executive Officer
