

Customer Information

RoHS – 2011/65/EU	E-mail: EHS-product-compliance@wago.com
	Tel: +49 (0)571 / 887 - 0

Dear Sir or Madam,

Thank you for your inquiry about the status of our products with respect to the 2011/65/EU Directive (also called "RoHS II").

The products of WAGO Kontakttechnik GmbH & Co. KG are developed, tested and marked in accordance with legal international standards and laws. WAGO is closely monitoring further developments in this field and will respond accordingly in a timely manner to possible additional requirements.

Products meeting the current substance restrictions of the directive are provided for example with an "RoHS-compliant" identification mark on the packaging.

RoHS ✓
Compliant

A data sheet for WAGO products, which also includes information concerning RoHS, can be downloaded from our Online Catalog/E Shop.

WAGO generally aims to ensure structured and effective communication with regard to RoHS and other regulations. To achieve this we have also been using the "BOMcheck" compliance tool since 2011. For more information on this Internet database system visit www.bomcheck.net. This gives you the opportunity to create a free account in order to then view our item-related declarations.

We hope that we have sufficiently answered your questions regarding RoHS.

Best regards,

WAGO Kontakttechnik GmbH & Co. KG
